## Everyone likes The Dog Who Didn't Growl.

by Sherri Galle-Teske

Can you imagine living in a darkness deeper than night? Not just any darkness—a world without sound, without sight, where every moment was an endless void. All you have is a sense of smell. This was this stray dog's reality. And this is Aggy's story.

Imagine being abandoned at the edge of a road, your body weak from hunger. All you have are your nose to catch fleeting scents and four trembling legs that barely hold your weight.

How long had she been there? Hours? Minutes? Time meant nothing when every moment blurred into the next. Her stomach had long ago stopped complaining, settling into a hollow ache that matched the emptiness of her world.

Scents told her stories that eyes never could.

A car slowly stopping. The scent of a human approaching. She couldn't run even if she wanted to.

A young man from the Charnecke family who lived close by had gentle hands when he lifted her. She felt warmth, movement, and then—blessed stillness in a vehicle that hummed beneath her.

In the home of her rescuer, more hands touched her, more scents surrounded her. Food appeared beneath her nose—the first real meal she'd had in who knows how long. Still, she remained locked in her silent, dark world, unable to understand the concerned voices discussing her fate. The family knew she was different.

When Humane Officers Vicki and McKenzie arrived from the Humane Society of Portage County WI, they saw beyond her emaciated frame and vacant eyes. They saw a beautiful

soul. They named her Aggy, giving identity to a creature who had likely never known the comfort of a name before.

In her darkness, she sensed something had changed. The hands that lifted her into the rescue vehicle were different from those that had abandoned her.

This wasn't an ending—it was a beginning. For in finding Aggy, The Humane Society of Portage County had given her something even more precious than food or shelter. They had given her back security, safety, confidence, and love. And though she couldn't see the path ahead, for the first time in a very long time, that path existed.

### A New Chapter

At the Humane Society of Portage County, Aggy's journey continued. The medical team worked gently with her, their touch conveying what their voices could not. She flinched at first when the needle pricked her skin for the Lyme disease test, but a soothing hand on her back helped her understand she wasn't in danger. She received another health exam confirming her blindness and hearing disability. She never complained or tried to bite—she just smiled.

"Eight months," the veterinarian said, examining her teeth and growth patterns. "Just a puppy, really. Born into a world she can't see or hear."

No microchip was found embedded beneath her skin. Day after day, the staff checked their lost dog reports, but no one came looking for a deaf and blind pup. No one claimed the little soul who had been cast aside like something broken and unwanted.

Aggy approached each day with unmistakable joy. She couldn't hear the morning bustle of the shelter or see the sunshine that streamed through the windows, but she could feel the vibrations of footsteps approaching her kennel, could smell

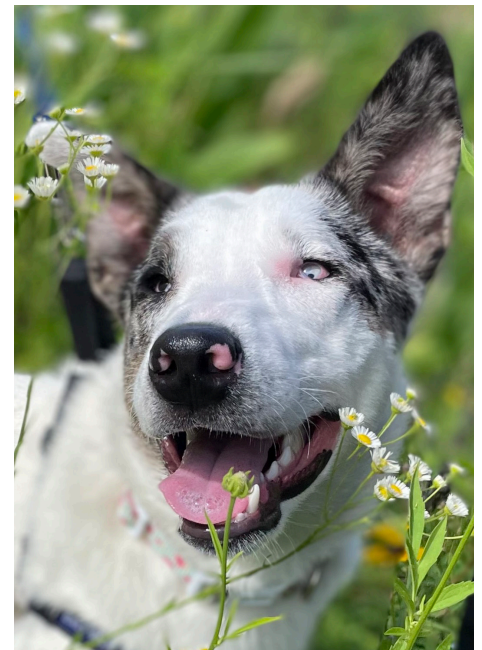

the distinct scent of each staff member who came to care for her.

She learned to recognize people by their touch—the gentle scratch behind her ears, the firm but kind hands of the medical team during her checkups, the playful pats from shelter care staff who spent extra time with her during their shifts. Each person had a signature, a way of moving that Aggy came to anticipate with wiggles of her tail.

We soon realized Aggy was missing something. She did not know anger, or how to growl. This girl loved everyone and everyone loved Aggy. What a wonderful karma she had; she did not know how to show aggression or anger. She appeared always happy.

"How do you train a dog who can't see or hear you?" people asked. "How do you call her when she wanders? How do you tell her she's good?"

Valid questions, all of them. And we knew the right place for her to learn how to cope with her disabilities.

### Kindred Spirit

After six months at the shelter, a new opportunity arose for Aggy.

Continued on page 4...

## Mission Statement

Our mission is to prevent cruelty, abuse, neglect and overpopulation of companion animals while seeking adoption of these animals into compatible homes, and teaching humane awareness and respect for all life thus helping to build a better community.

## Kitten Fosters needed

We receive many kittens (two months of age or younger) who need urgent rescue and care. We are looking for Kitten Fosters who can bottle feed kittens overnight while we secure a long-term foster home! We are also in need of foster homes for adult cats who have special requirements or just need a break from the stressful shelter setting. As an adult cat foster, you'll provide us with valuable information about your foster cat's personality that will help us find the perfect adopter! We are looking for those extra special people with a little extra love and room to spare who are willing to offer special needs foster care for these animals. HSPC will provide everything you need to care for your new foster and work with you to provide the best care. If you are interested in becoming a foster, please complete an application or call the adoption coordinator at 715-344-6012 ext 311.

Online Adoption & Foster Applications Available at [www.HSPCWI.org](http://www.HSPCWI.org)

## Hours of operation

**Tuesday & Thursday 12 to 6PM**

The Humane Society of Portage County shelter is also open by appointment.

Call 715-344-6012 to make an appointment.

## Our Everyday Wish List

Canned cat food (Hill's Science Diet, Friskies & Iams PATÉ ONLY)  
Canned dog food (Hill's Science Diet, Pedigree, Purina ONLY)  
Adult cat and kitten dry food (Iams, Royal Canin, Purina Pro)  
Cat & Dog toys  
Liquid Laundry Soap  
Frontline Plus for Dogs (45-88 lbs)  
Revolution for Dogs (85-130 lbs)

## From The Heart

*Sherri Galle-Teske Executive Director*

As the snow covers the ground and the cold envelops the land; I write this with feelings of reflection. Reflection on the happenings of the past year and all the challenges faced for the Humane Society of Portage County.

In order to tell you what challenges faced the organization I feel compelled to discuss the major question behind the conversations. It is a question that many think they know the answer to; but they do not.

The question is "What Does the Humane Society of Portage County Do"? For the past 52 years we have found that people really cannot properly answer this question except to say "You adopt out animals". The correct answer is "We SAVE Lives". And that my friends is exactly what we do. What causes the controversy and all the drama --is how we do it.

To find a stray animal is the easy part. Our Animal Control department has new challenges every day. Look around --I'm sure you have seen cats and dogs occasionally running around town without a leash. The hard part is trying to find the owner, picking up lifeless bodies off of the streets, seeing many of them writhing in pain, and having some pets expiring in your arms. Let's do that job 24 hours per day X 7 days a week. Not to mention all the calls from people living in the entire county. Calls ranging from nuisance animals to inspecting premises to working with local law enforcement. That is only part of what the Animal Control Department does. They bring the animals to the shelter from many dire situations and circumstances so vile and horrific one cannot even talk about them.

When an animal arrives at the shelter our Medical team comes to the rescue. With help from local Vets they assess any health crisis, and perform surgery when needed. They assist in countless spays & neuters, and treat the animals here with life-saving medicines. The Medical team also comes in on their day off to ensure an animal has the right

medicine or save a life with a surgery procedure.

Yes—we are a no-kill shelter; but we must euthanize when an animal is in such excruciating pain and so severely damaged it is the ONLY humane thing to do. And we still maintain a 97 to 100% live release rate. We finished 2025 with a 97.7% live release rate.

Our Shelter Care crew is up to their eye-balls in kennel and cage cleaning, disinfecting, feeding the animals nutritional high value food, washing up diarrhea, and wiping up vomit and other body fluids. When those jobs are completed they deep clean the rest of the shelter to prevent disease transmission. Easy job? Not on your life. This past fall we consistently maintained a cat intake total of 200 for 8 weeks. We had kennels set up over various parts of the building. And not one pet was euthanized for space or because we were tired and exhausted. Try cleaning up over 200 animals a day—by hand.

And last, but not least comes Adoption. Our dog Adoption Manager has 37 years of experience in working with the Humane Society. She "gets" it. Our Cat Adoption Manager has experience at the shelter as a former Humane Officer. In the month of October she adopted out over 75 felines. We also have a working cat program for the agricultural folks.

**We SAVE Lives!**

In 2025 a question arose regarding our transparency in reporting. We received national excellence awards from Charity Navigator and Candid/ GuideStar. Since we are a private-non profit we do not have to legally show our financial position, but we do. It's all on our website.

We are a "No Kill" shelter. Questions arose from the public accusing the shelter of euthanizing 30 dogs. This NEVER happened here. In fact we were awarded a commendation by "Best Friends" for maintaining over a 90% live release rate in 2022 and again in 2024. HSPC must maintain complete records on every animal in

our possession and keep track of any medicines and euthanasias here.

I could not be prouder of the work we do; how we do it, and who we do it with. The staff here is amazing and the Medical Team and Doctors, the management team, our caring Volunteers and the Board of Directors are phenomenal. Bring it on 2026—we are ready for ya!

Sherri Galle-Teske  
Executive Director HSPC

to inform us about the omission.  
We will recognize your donation  
in the next newsletter.**

Continued from page 1

A specialized rescue that worked specifically with special needs dogs, had space available. The staff at HSPC made the difficult decision to transfer her, hoping this might be her pathway to finding her forever family.

“We’re going to miss you, sweet girl,” staff whispered as they prepared Aggy for transport. The little dog couldn’t hear the words, but she felt the extra tenderness in staff touches, the lingering hug that said goodbye more clearly than words ever could.

At the rescue, Aggy’s world expanded again. Here, the volunteers were skilled in working with dogs like her and found a foster home who could teach Aggy bathroom manners, and how to communicate.

“She has the most remarkable spirit,” HSPC’s Executive Director said. “She’s never known what it’s like to

see a sunset or hear laughter, but she’s never known a day of anger either. It’s like she was born with an extra measure of joy to compensate for what she lacks.”

Several weeks after arriving at the rescue, a special person came forward. She already had a dog at home that had been born deaf and blind. And decided to take Aggy too.

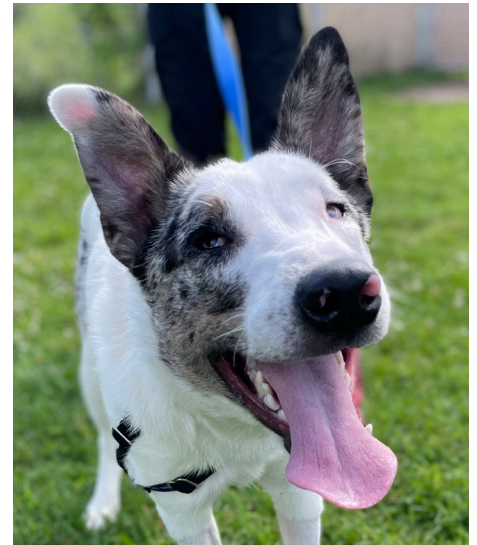

Aggy lives completely in the present. She doesn’t worry about what she’s missing—she celebrates what she has. Her heart is too big for negativity.

And it was true. Aggy, who had once been abandoned at the edge of a road, who had known hunger and fear and loneliness, embodies a kind of contentment that many humans spend their lives seeking. She now has shelter, food, companionship, love—and in her world, that is everything.

In her world there is no need for

resentment and anger. No need for growling. Therefore she did not learn or need that negative emotion. In her dark and silent world, Aggy has found light. ..

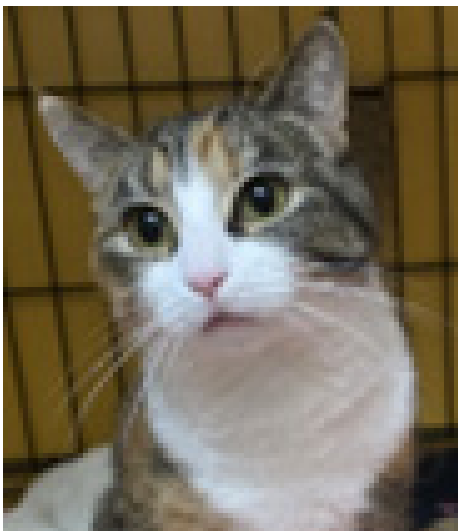

We think humans could learn a lot from dogs like Aggy.

## Nadia’s Final Chapter Nadia’s Hope:

How the Humane Society of Portage County Creates Second Chances  
Nadia’s Journey from Tragedy to Hope to a Family

For weeks, a little calico cat wandered alone through rural Portage County, visiting a kind family who offered her food and gentle pets. They weren’t her owners, but they became her friends. One day, the young cat stopped appearing. When she finally dragged herself back, something was terribly wrong – her back legs were limp, and she had

to pull herself through the field. Yet even in this heartbreaking state, she made her way to the people who had shown her love. The family rushed to help, bringing the injured cat to the Humane Society of Portage County.

At the shelter, Animal Control Manager Victoria Nellesen gently welcomed the calico. Despite severe injuries, the kitten – barely a year old – remained incredibly sweet and hopeful. She purred constantly, rubbing her face into the hands of those comforting her, even as she struggled to move. Our veterinary team immediately conducted an exam using our in-house X-ray machine. The results were devastating: the little cat had been shot. A bullet lodged in her abdomen had damaged her spine, leaving her unable to walk. And yet, through all the pain and confusion, she never stopped purring.

Staff named her Nadia, a name meaning “hope” in Russian – because that’s exactly what she embodied. Our team sprang into action to give Nadia every chance at healing. They set up a special rehabilitation kennel with soft bedding, easy access to food and water, and enrichment toys to keep her spirits up. Nadia even had a cozy “tent bed” where she felt secure, and she enjoyed daily chin scratches from staff and volunteers. Though

she cannot use her hind legs fully and needs help with her bladder, Nadia’s spirit remained unbroken. With time, medical care, and compassion, she regained some strength.

After spending 301 days at the Humane Society of Portage County, Nadia found her forever home.

Her journey from cruelty to care illustrates the heart of HSPC’s work – a journey of hope that wouldn’t be possible without our community’s support.

# Happy Tails - stories about adopted animals & shelter visitors

**GARFIELD/Lil' Bit** - His family says "Garfield has been lounging in the living room alllll day! This is a huge deal as he has been extremely cuddly lots of fun, but only came out at night in the living room. Today he's been out in the living room all day long and being comfy cozy in the chair"

**FARFEL** - This update requires a bit of a backstory. Back in 2020 Janet Gilbert was a special type of volunteer for HSPC. She would foster kitties who appeared to be feral and required remedial socialization. Janet was fearless and gentle in her work. Often the socialization process took weeks, but occasionally she would discover that a "feral" cat was actually a friendly cat who was just terrified in the shelter environment. This was the case with Farfel, who Janet says was purring 24 hours after he arrived at her home. The family who adopted Farfel sent this update to Janet. — *Farfel is a a special boy and we all thank you for petting him with an oven mitt attached to a wooden spoon! Eight years old today! Living his best life! I had "back stage" access to all the cats when I was ready to adopt again because of my parent's neighbor and the previous cat I adopted...I saw*

*Farfel and said: "that cat!" He's the one! Our daughter has T1d (type one diabetes) and Farfel has basically "adopted" her. He is VERY intuitive of her needs. He is basically her "support kitty" every day.*

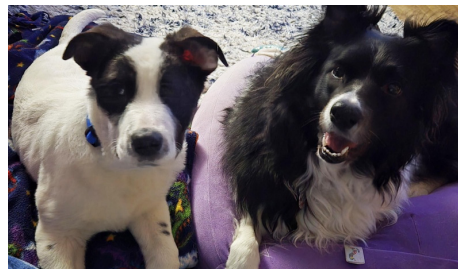

**PHOEBE** - Her family says "Phoebe is doing great so far! She was a perfect angel in the car, and she's settling in already."

**NOVA/Irwin** - Her family says "Nova is absolutely loving her life, especially this holiday season in her new home! We are so thankful she loves being a part of our family. We couldn't be happier this holiday season with her coming into our lives in 2024. Happy New year!!"

**SEGER/Wookie** - The Knott Family says "I wanted to give another update on Seger and how fantastic he has been for our family. He's living his best life and we're so lucky to have him. Everyone who meets him says how beautiful and great of a dog he is. Thanks for giving us this opportunity!"

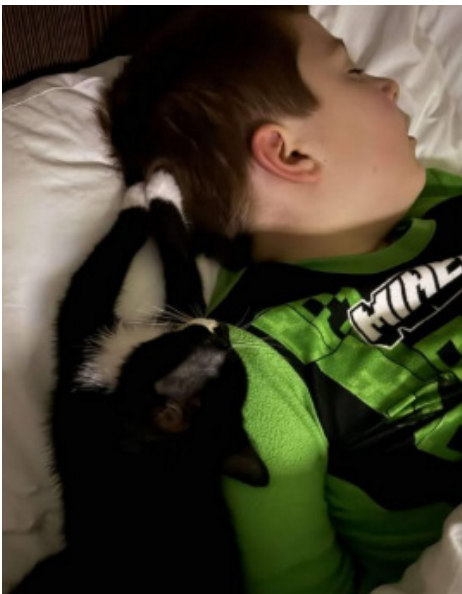

**OLAF** - His family says "Here are some pictures of his first 24 hours! He's learning how tug-o-war works from his new sister who does it so gentle for him. He wants every toy she has like a true brother. He even got a visit from his "bonus brother" Dexter, and played until he crashed. He's been so sweet, cuddly, and makes sure I'm never without him!"

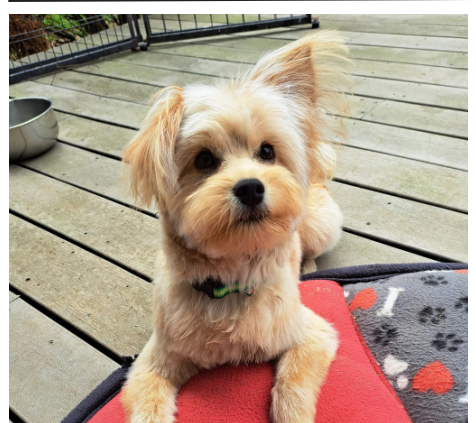

**MIDNIGHT/Newie** - His family says "He is doing great! I am not sure there has been a cat that could get more attention. The girls decided on Midnight."

HANK/Heat Miser - His family says "He is adjusting very very well! He loves to come up by me on the couch or my bed and loves to be pet. He loves to follow me around and rubs against my legs if I am standing up doing something. He also knows when I am coming home because I walk into my apartment and he is right there for me. I have chosen a new name for him and it's Hank and he responds to it right away."

TIANA/Teak - Her family says "Teak is now named Tiana. She's the sweetest little baby. She loves to play but she hid under the couch for a couple hours when I first brought her home but then after that she came out of her shell and adapted very easily to around my apartment. She loves all the pink toys I got her, she also has a pink collar, a pink cat tree and a pink bed that she sleeps in next to me every night. I already gave her a bath she was very easy, she got used to the water right away and just wanted me to hold her. I love her so dearly and she's such a wonderful add to my home."

EZEKIEL/Winn Dixie - His family says "Winn Dixie got a groom. He did very well. Winn now renamed Ezekiel is starting obedience lessons on Thursday , he is still a little spark plug but has learned basic commands and working on his manners . He just loves people and forgets but we are getting there. His future is bright! The best snuggler ever. Thank you for making this happen."

BUTTON - Her family says: "She is fitting in so well. She loves everyone"

KYLE/Chicken & IZZY/Giza - Their family says "Chicken (buff color) is now Kyle and Giza (white and black) is now Izzy. After a couple days of adjusting - Kyle and Izzy are snuggle buddies!"  
*Admin note: Kyle was adopted late November and Izzy was added to the family a few weeks later.*

BOBCAT - His family says "Thought I'd send an update on Bobcat. He's definitely living his best life! He's all about the snuggles and pets. If you stop petting him he'll paw at you for more! He's such a sweetheart!"

ZEUS/Theo - The Colbys say "One year ago today we adopted Zeus (was Theo). He's very happy in his new home and loves his big brothers. They love going to the park and running every day and love creating music together. We love him and are happy he's home."

WALTER MITTY - His family says "Walter came out from hiding under the bed on day two. He's precious. We all love him. He loves being petted and gives us lots of licks on our faces. Runs around the house with his toys. We kept his name, it suits him. Thank you to the Humane Society for keeping him safe and allowing us to adopt him."

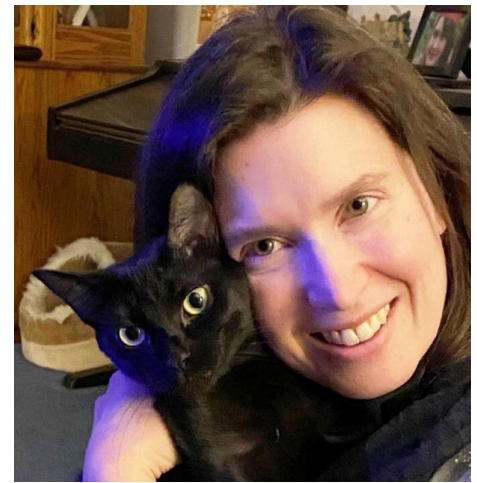

FINN/Nick his family says "I thought we would give you a 1-week update on how Finn (formerly Nick) is doing. We are loving his goofiness and silly personality. He is settling right in here at our house. He's even found his way into sleeping in our bed at night. We've been taking him with us in the car quite a bit and he loves it. We're looking forward to many more roadtrips with him. He's also been very good meeting other people and dogs. He met our father's/father in-law's dog last weekend and they got along great. He's also gaining his confidence as we take him to Fleet Farm to walk around and meet people in a public place. Overall, he's been a great addition to our family!!"

SHAQ - His family says "Shaq is adjusting great! He has found a cozy spot in front of a window to investigate the happenings outside his world. He has so much curiosity and love to give. Shaq loves snuggling up with us and giving us head bumps. His new activity is playing with his favorite toy, a D.I.Y project of just a hair tie and string, he carries it around everywhere."

GRAVY BOAT his family says "We had to keep his name because it is so fitting and funny. He pretty much runs the house, claiming every box and bag that dares to enter his domain. He is super curious, playful, snuggly, and his personality is truly showing at this point. He has gotten into a routine and wakes me up every morning by sitting on my chest and staring into my soul until I open my eyes. He is a very vocal little boy, especially when you go to the bathroom, which is a little weird but he has decided that when we go to the bathroom is when he tells us all about his day. He also loves to watch his little brother and sister (the hamsters) and I think he has formed a special bond with Jerry (the male). He loves to sit on the windowsills and watch our neighbors, but I think he is silently judging them. We are beyond happy and it feels that our little family is finally complete! He is constantly purring and by our side so I believe that he is very happy here. Thank you again for Gravy Boat and we are so thankful for you guys and everything you did for him before he came here."

POPPY/Morticia - Her family says "Poppy (Morticia) has settled in right away, has her routine down, and follows us wherever we go. She's even started bringing me gifts, thankfully not mice, but little Barbie clothes or whatever she can drag up from the basement. Even a tennis ball. I was sure to take my gift to her immediately and thank her. She gets her teeth brushed every night too. She has decided sleeping between my husband and I is her spot, until today, when she discovered my heating pad that I had to turn on for her immediately. I've probably created a monster and will have to buy a new one for myself. She's also a lap cat and will lay wherever we are. She had a perfect first vet visit and all her labs and teeth were excellent. We've fallen in love with her. The vet noticed what I did the moment she laid eyes on her, that she appeared to be mixed with an Asian or a bit of Cornish Rex."

ANAKIN & PADME - Their family says "Anakin and Padme are adjusting well to their new home. They are starting to come out of their shell and love to chase each other around then snuggle up together. Their older brother is still getting used to the new kitties but he has been curious and wanting to play with them."
